

## New Orleans Mardi Gras Getaway

The New Orleans Mardi Gras trip was the best thing that happened to me and the most fun I had since my diagnosis with osteoarthritis. We had so much fun. The kids I met were fun to be around. Hopefully, I will someday meet all of them again. I miss all of you so much. The trip happened so fast. Everytime I think about the trip, I want to go back in time, to see all my friends again. I think the best thing about the trip was the new friends and the food. I hope we can visit each other. I'm going to try to keep up with

letters and birthday. But all of you have to keep up to date about your treatments everything. Also send me pictures! I want lots of pictures for my scrapbook. I want a picture every 3 months. I want to know if you move, I want to know everything so keep in touch! I want a letter every 3 weeks to a month. Also you can call me and we could meet up on-line to chat. I will try to keep all of you up-to-date with my modeling/acting/singing career.

2 Much Luv 4 U

Kie N.

P.S. Thank all of you including my son
